Chennai

Professional Summary

A final-year Computer Science and Engineering student who has consistently moved beyond the classroom turning research into patents, ideas into shipped products, and concepts into real-world applications before earning a degree. Known for bridging the gap between technical execution and user-centered thinking, with a track record of delivering under real deadlines for real stakeholders. Driven by the belief that good technology should solve genuine problems not just pass evaluation criteria.

Education

BE - Sri Sairam Engineering College | Computer Science and Engineering

📍 Tambaram, India

📅 2023 - 2027

Consistently maintaining academic excellence while applying theoretical foundations to real-world, self-initiated problems ahead of graduation.

CGPA: 9.11

Internships

Web Development Intern

Neyveli Lignite Corporation India Limited

📅 12/2025 - 12/2025

📍 Neyveli, India

Designed and developed a full-stack canteen management web application with real-time database integration, streamlining order processing and operational data management.

UI/UX Designer Intern

Vulture Lines Tech Management Pvt Ltd

📅 06/2025 - 07/2025

📍 Anna Nagar

Led end-to-end UI/UX design for a healthcare mobile application in Figma, delivering intuitive screen flows that prioritized accessibility and user engagement.

Idea Patent Published

NAVICARRIERE

🔗 <https://tinyurl.com/Sree-patent>

A published idea patent addressing career indecision among school leavers combining personalized assessments, academic planning, and job market intelligence with an embedded Raspberry Pi learning module for hardware-supported practical guidance.

Leadership

Leadership: Led and organized multiple events as an active member and a key contributor of the IEEE VTS SEC Student Branch Chapter

Skills

Programming Languages:

Python, Java, TypeScript, JavaScript (ES6+)

Web & Frontend Development:

HTML, CSS, React.js

UI/UX & Design:

Figma, Canva, UI- Prototyping

Database:

MySQL, MongoDB, SQLite

Tools & Platforms:

Git, Github, Linux, PyUnit, Cloud Basics

Consulting & Soft Skills

Requirements Gathering, Agile/Scrum, Technical Documentation, Stakeholder Communication.

Projects

CBI SECURE ACCESS SYSTEM

🔗 https://github.com/Sreelakshmiag2004/Secure_access_System

The Secure Access System is a Python console-based application that provides secure login and role-based access to confidential case records. It supports Admin and Officer roles, account locking after failed login attempts, Admin-based unlocking, and audit logging using local file storage.

CANTEEN MANAGEMENT

🔗 https://github.com/Sreelakshmiag2004/canteen_management

Java-based Canteen Management System developed at **NLC India Limited**, focused on building a structured web application with an intuitive interface and reliable database connectivity for organized management of canteen-related data

SAIRAM MUN WEBSITE

🔗 <https://github.com/Sreelakshmiag2004/Sairam-mun-website>

Architected a responsive event management platform using TypeScript. Implemented a robust client-server setup to effectively handle **real-time registration data** and stakeholder information during a major college event.

MINDMATE

🔗 <https://github.com/Sreelakshmiag2004/Mind-Mate>

Architected and prototyped an empathy-led mental wellness application, utilizing modern AI-assisted development workflows to accelerate the product lifecycle. Designed intuitive user journeys and empathy-focused interfaces to solve the emotional support gap for stressed users.

Certifications

RHCSA (RedHat Certified System Administrator)
